

Our Response to COVID-19

The health of our patients and our community is our number one priority. We recognize this is a difficult time for our community due to the Coronavirus outbreak, and we want to reassure our patients that every decision we make is done with the best interests of our patients, our employees, and our community in mind.

In accordance with the CDC, ADA, State and local dental association recommendations, we have decided to **temporarily close** our practice doors.

If you have an appointment for a routine visit or dental treatment scheduled in the next few weeks, we will contact you soon to reschedule it.

As your local dentist and a healthcare professional, it is our responsibility and duty to ensure the health and safety of everyone within our reach. In order to slow the spread of the Coronavirus, we feel that ceasing dental work is the best decision to make at this time. We want you to know that we are carefully monitoring the situation as the COVID-19 diagnosis continues to evolve, and we are taking all recommendations — including local, state and federal guidelines — very seriously.

We are saddened that we have to postpone patient care in this manner but we wouldn't do so if we weren't absolutely sure it was in the best interest of our community. We look forward to the day we can reopen our doors and provide you with the high-quality, patient-focused dental care you deserve and trust.

Thank you for your understanding, loyalty and confidence in our care.
